

**YOU EITHER
CONTROL MONEY
OR IT CONTROLS YOU**

**TICKET RATE
MMM**

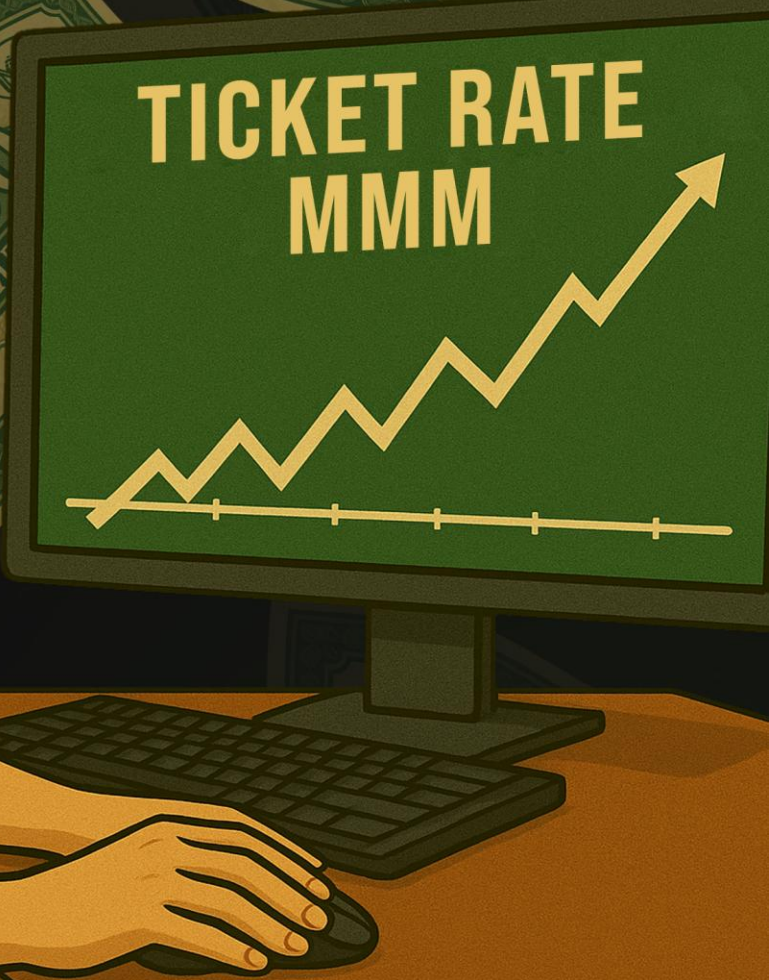

**THEY DON'T PROMISE
HERE. THEY DO IT
AND THE COURSE
IS PROOF OF THAT.**

**What is the essence
of the system?**

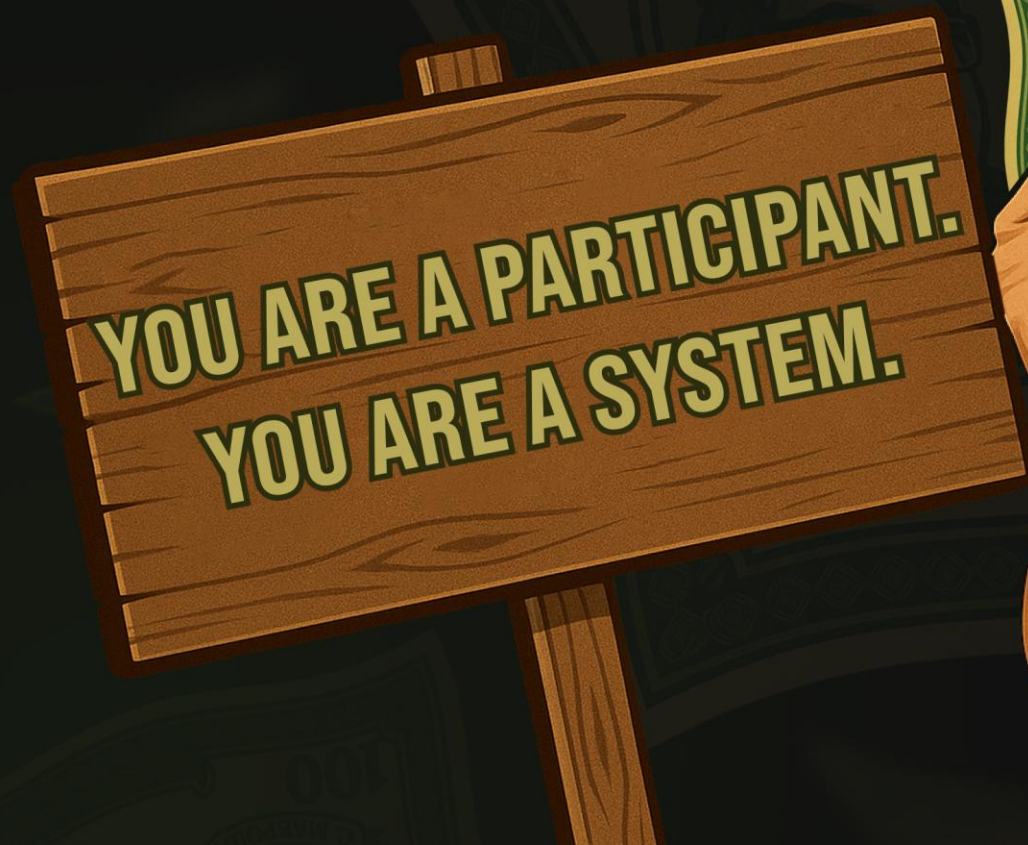

Why does it
work?

Who receives the income?

MMM doesn't feed dreamers. It feeds participants.

High-yield tickets (freeze)

Smart people don't run. Smart people wait. And then they skim the cream.

Your structure, foremen, centurions

You call 10 people → a
“Ten” appears

. Each person calls 2 → a
“Hundred” is born

. You organize several
“Hundreds” → you are
a “Thousander”.

MMM DOESN'T FORCE.
SHE SUGGESTS.
WHOEVER FIGURED IT
OUT, CHOSE

Why is the rate rising?

The rate is growing because you are growing. That's it, don't look for other reasons.

How much can you earn?

MMM does not pay for attention.
MMM pays for participation. And patience.

Ticket growth

16%
per month

Ticket purchase conditions

In MMM everything is simple. Money grows where it is not touched.

History of MMM: 1994 and 2011 – what went wrong?

Then - revolution.
Now - evolution.

1994

queues, tickets, cash,
police

2011

website interface,
splash - panic

2025

members booths, charts,
stable growth, freeze, P2P
exchange

MMM-BANK: own system, own contour

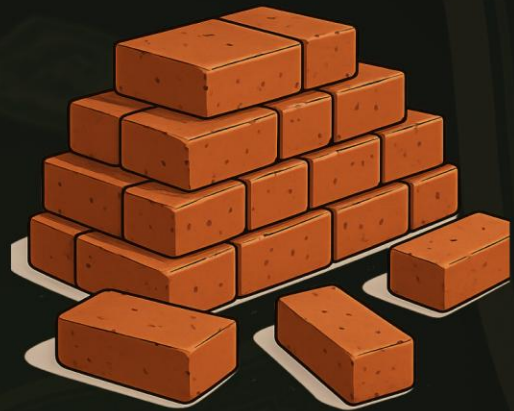

If we have our own bank,
why do we need them?

What if everything collapses?

The system lives as long as you are in it.

Being afraid is not a strategy. Participating is a choice.

Advantages of the MMM International system

If you understand, you no
longer need guarantees.

We don't just pay.
We change the rules of the
game.
