Langkah 2

Buat dompet

1. Buka aplikasi TronLink

2. Klik "Buat dompet"

3. Buat nama dompet, kata sandi yang kuat dan konfirmasikan

This screenshot shows the 'Create Wallet' screen in the TronLink app. The screen has a back arrow at the top left. The title 'Create Wallet' is at the top, next to a wallet icon. Below the title, there's a progress indicator with three steps: 1. Wallet Name & Password, 2. Security Shield, and 3. Wallet Created. The first step is active. Under 'Name', there's a text input field with the placeholder text 'Wallet'. A red arrow points to this field. Below that, under 'Set a Password', there's a note: 'Please be noted that TronLink does not store the password and cannot retrieve it for you.' followed by a password input field with the placeholder 'Enter a password'. A red arrow points to this field. Below the password field, there are four checkboxes: 'Uppercase', 'Lowercase', 'Number', and 'At least 8 characters', all of which are checked. Under 'Reenter Password', there's a red arrow pointing to the 'Create a GasFree wallet at the same time to enjoy the permit transfers, which can free you from gas fees! Learn more about GasFree' checkbox, which is checked. Below this, there's another checkbox: 'I understand that TronLink cannot recover this password for me.', which is unchecked. At the bottom, there's a 'Create Wallet' button.

4. Simpan frasa rahasia (12 kata) - ini penting! Tulis di kertas dan jangan perlihatkan kepada siapa pun.

Protect Your Wallet

First, you need to understand what a mnemonic phrase is and how to safeguard your wallet.

What's an account mnemonic phrase?

A mnemonic phrase typically consists of 12 words. It is the "master key" to your crypto wallet and funds.

How to safely store my mnemonic phrase?

- Save it in a password manager.
- Store it in a safe box.
- Write it down and store it in various secure locations.

Should I share my mnemonic phrase?

⚠ If someone requests your recovery phrase, it's most likely that they are attempting to deceive you and steal your wallet assets.

Selesai Dompot Anda telah dibuat.

Lokasi nomor dompet Anda

Langkah 3

Aktifkan dompet Anda - isi ulang TRX Anda

Tanpa TRX, dompet tidak aktif. Anda tidak akan dapat mengirim atau menerima apa pun.

Tempat membeli TRX (koin jaringan TRON):

Bursa Binance/Bybit

- Daftar: binance.com | bybit.com
- Isi ulang dengan kartu atau melalui P2P
- Beli TRX dan tarik ke alamat dari TronLink

Platform P2P (tanpa registrasi di bursa)

bestchange.ru | exnode.ru

Dompet pihak ketiga - jika Anda sudah memilikinya, Anda dapat mentransfer TRX dari sana

Langkah 4

Cara menemukan alamat untuk pengisian ulang

1. Buka TronLink
2. Klik dompet Anda → tombol Terima
3. Salin alamat TRON Anda (dimulai dengan T...)
4. Tempel alamat ini saat mengirim TRX dari Binance atau dompet lain

Langkah 5

Pastikan jaringan yang benar dipilih.

Di bagian atas aplikasi, seharusnya tertulis Mainnet (TRON). Jika tidak, klik dan pilih.

Langkah 6

Sekarang Anda bisa:

- Terima dan kirim USDT (TRC-20)
- Simpan token TRC-20 apa pun
- Berpartisipasilah dalam proyek, gunakan dApps, hubungkan dompet ke situs web

PENTING UNTUK DIINGAT

- Biaya jaringan TRON dibayarkan dalam TRX saja - simpan setidaknya 3-5 TRX di saldo dompet Anda
- Jangan percaya siapa pun dengan frasa rahasia Anda! (12 kata)
- Selalu periksa apakah jaringan tersebut adalah Mainnet
