

Jinsi ya Kuanza
Kutumia
Mkoba wa
TronLink

Tovuti rasmi

tronlink.org

Hatua ya 1

Sakinisha TronLink

Kwa Android

Pakua kupitia Google Play

[Sakinisha](#)

Kwa iPhone (iOS)

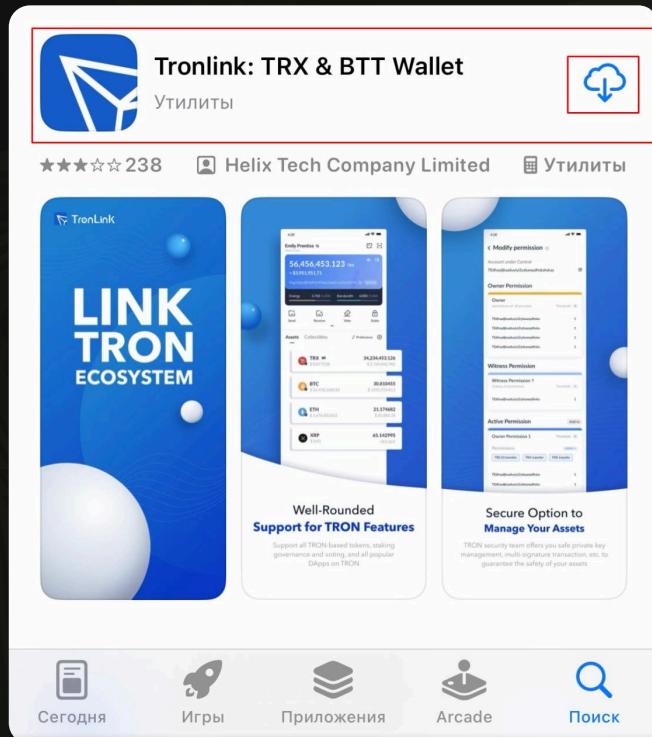

Sakinisha kupitia Hifadhi ya Programu

[Sakinisha](#)

Kwa kompyuta (kiendelezi cha Chrome)

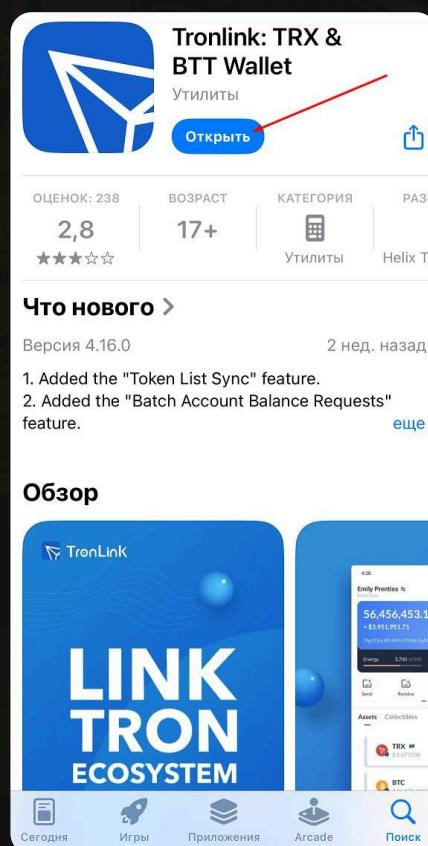

[Sakinisha](#)

Hatua ya 2

Unda mkoba

1. Fungua programu ya TronLink

2. Bonyeza "Unda mkoba"

3. Unda jina la mkoba, nenosiri kali na uthibitishe

The screenshot shows the "Create Wallet" form. It has a three-step progress bar at the top: 1. Wallet Name & Password, 2. Security Shield, 3. Wallet Created. The first step is active. Below the steps are fields for "Name" (containing "Wallet") and "Set a Password". A note says "Please be noted that IronLink does not store the password and cannot retrieve it for you." Below that is a password input field with placeholder "Enter a password". Underneath the password field are checkboxes for "Uppercase", "Lowercase", "Number", and "At least 8 characters". The second step, "Security Shield", is shown below with a "Reenter Password" field and a note about creating a GasFree wallet. At the bottom are two checkboxes: "Create a GasFree wallet at the same time to enjoy the permit transfers, which can free you from gas fees! Learn more about GasFree" and "I understand that TronLink cannot recover this password for me.". A large "Create Wallet" button is at the bottom.

4. Weka maneno ya siri (maneno 12) - hii ni muhimu! landike kwenye karatasi na usionyeshe mtu yeyote.

The image shows three screenshots of a mobile application interface:

- Create Wallet**: A step-by-step guide with icons and text:
 - Step 1: Wallet Name & Password
 - Step 2: Security Shield
 - Step 3: Wallet CreatedA small orange wallet icon is at the top right. Below the steps is a section titled "Protect Your Wallet" with a shield icon, containing text about understanding mnemonic phrases and safeguarding the wallet.
- Back Up Mnemonic**: Shows a progress bar and instructions:
 - Step 1: Wallet Name & Password
 - Step 2: Security Shield
 - Step 3: Wallet Created

Please write down the following words in the correct order.

Below the text is a blurred grid of words. A red arrow points to a "View Mnemonic" button.

Anyone with your mnemonic can access all your assets. Please keep the information to yourself.

View Mnemonic

At the bottom is a note: "Please do not take screenshots, which might be intercepted by hackers. You are advised to store it safely." A "Skip (Not Recommended)" and a "Set Up (Recommended)" button are at the bottom left.
- Back Up Mnemonic**: Similar to the previous screen but with a red border around the word grid:
 - Step 1: Wallet Name & Password
 - Step 2: Security Shield
 - Step 3: Wallet Created

Please write down the following words in the correct order.

Below the text is a grid of words:

focus	hire	pelican
list	sphere	fun
pioneer	lazy	symbol
seed	jewel	long

At the bottom are "Hide" and "QR Code" buttons, and a "Keep Mnemonic Safe" note.

Already Backed Up

5. Chagua maneno sahihi ya siri

The image shows a screenshot of a mobile application interface for verifying a mnemonic phrase:

Verify Mnemonic: A step-by-step guide with icons and text:

- Step 1: Wallet Name & Password
- Step 2: Security Shield
- Step 3: Wallet Created

To ensure you have stored the mnemonic in the correct order, select the right word with the corresponding numbers.

Below is a 4x3 grid of numbered boxes:

1	2	3
4	5	6
7	8	9
10	11	12

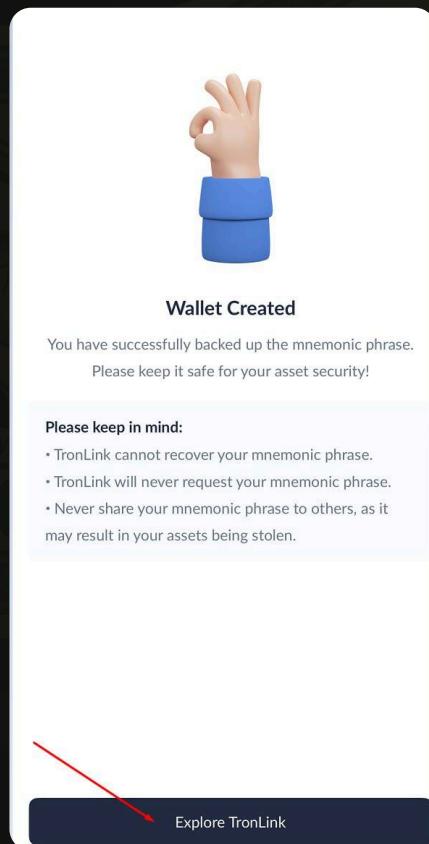

Red boxes highlight the 8th, 9th, and 10th positions, corresponding to the words "8", "9", and "10".

Below the grid are three sections for choosing words:

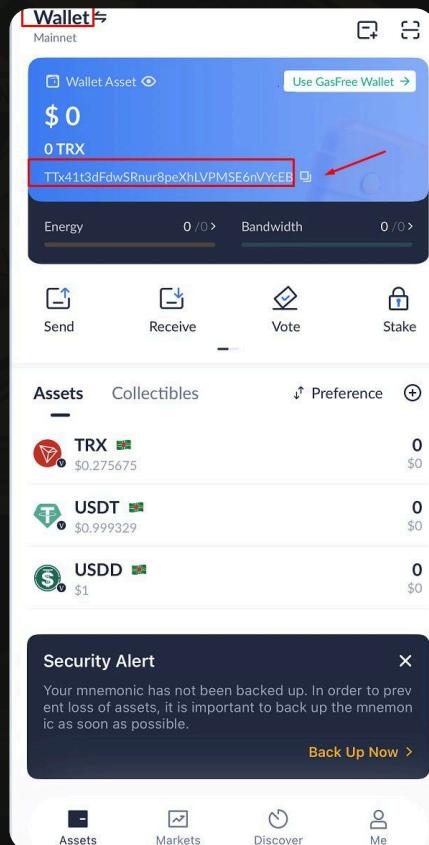

- Choose the No.8 word:
 - lazy
 - give
 - excuse
- Choose the No.9 word:
 - fatal
 - symbol
 - cattle
- Choose the No.10 word:
 - good
 - input
 - lock

A red arrow points to a "Complete" button at the bottom right.

Imekamilika Mkoba wako umeundwa.

Mahali pa nambari yako ya mkoba

Hatua ya 3

Washa mkoba wako - jaza TRX yako

Bila TRX, mkoba haufanyi kazi. Hutaweza kutuma au kupokea chochote.

Mahali pa kununua TRX (sarafu ya mtandao wa TRON):

Mabadilishano ya Binance/Bybit

- Sajili: binance.com | bybit.com
- Jaza na kadi au kupitia P2P
- Nunua TRX na uondoe ili utumie anwani kutoka TronLink

Majukwaa ya P2P (bila usajili kwenye ubadilishanaji)

bestchange.ru | exnode.ru

Mkoba wa mtu wa tatu - ikiwa tayari unayo, unaweza kuhamisha TRX kutoka hapo

Hatua ya 4

Jinsi ya kupata anwani ya kujaza tena

1. Fungua TronLink
2. Bofya kwenye pochi yako → Kitufe cha Pokea
3. Nakili anwani yako ya TRON (inaanza na T...)
4. Bandika anwani hii unapotuma TRX kutoka kwa Binance au pochi nyingine.

Hatua ya 5

Hakikisha mtandao sahihi umechaguliwa.

Juu ya programu inapaswa kusema Mainnet (TRON). Ikiwa sivyo, bofya na uchague.

Sasa unaweza:

- Pokea na tuma USDT (TRC-20)
- Hifadhi tokeni zozote za TRC-20
- Shiriki katika miradi, tumia dApps, unganisha pochi kwenye tovuti.

MUHIMU KUKUMBUKA

- Ada za mtandao wa TRON hulipwa kwa TRX pekee - weka angalau 3-5 TRX kwenye salio la mkoba wako
- Usimwamini mtu yeyote kwa maneno yako ya siri! (maneno 12)
- Daima hakikisha kwamba mtandao ni Mainnet
